Mr. Dyal,

With all due respect, I understand that and know that city clerk is the one who gets the items and info to be placed on the agenda. However, since the city clerk Audrey Sikes has lied about being afraid of me, that I threaten her, that I was hostile with her, and that she is scared to ever be in the same room with me and that she left in a room alone in which you were present. However, you and many others know that was a blatant lie she told but nobody came to my aide or defend me concerning those false allegations about me, which is another assassination of my character. You (Mr. Dyal) didn't address that lie, Councilman Jake Hill didn't address that lie, nor did councilman Ricky Jernigan address that lie! Each of you were made aware of this lie! It may be okay for Mrs. Sikes to lie to the council, lie about the council, undermine the council and administration, and leak city information and get away with it because of certain community ties and few good ole boys who lobbied the council to not terminate but instead sing her praises. But I am not one of those people. So we are going fix and confront that lie and publicly vindicate me from that level of false allegations. That said, I cc Mrs. Sikes because since is so "afraid of me" I don't know how to proceed with her. Perhaps a method of doing so should be placed on the agenda.

Mr. Dyal,

I have loss much sleep and have overwhelming anxiety add to my life since finding out that City Clerk Audrey Sikes lied on me to councilman Jake Hill and Ricky Jernigan about being in a room with me alone in which she told those council members that I was hostile, rude, belittling, and mean toward her and that she is now scared to be around me alone. However, she neglected to tell the truth that you were present the whole while of our conversation. This type of lie against me can not stand. This is a similar lie that took place on May 31, 1921 that Sarah Page told that caused the destruction of Black Wall Street and the death of many Black lives. This type of lying over the decades have caused the most horrendous murders of Black men. I know that Mrs. Sikes doesn't work for you therefore I am only asking what method do I need to use to get this matter investigated and heard by the city council. Thanks.

**Subject: Termination of Audrey Sikes and City Law Firm**

To the Mayor and council members: I am asking that you make a decision to terminate or allow Mrs. Sikes to resign for the lies she told on me about being left alone with me, that I was hostile , and threatening toward her. She even went as far as to tell some council members she was afraid of me and never wanted to be left alone with me at anytime. She has defamed my character and lied as to how I interact with women when primarily all of my business deals and interaction are majority of women. However, someone in the administration is a witness to what Mrs Sikes said about me is not true. Two council members know that is not true as well. I have spoken to my private investigator and lawyer. We can go the route of Mrs. Sikes resigning or you members can terminate her. Or we can make me spend money by filing a complaint with HR, get my attorney with EEOC for right to sue, get the media involved, blow up social media, and then have all who are aware that she lied on me

subpoena for a deposition in which if anyone decides to lie or cover up for her will perjury themselves, be fined and charged. I have all the evidence in this matter I need. I hope to have this matter resolved with Mrs. Sikes at the 9/5/23 so I can know how to proceed or not to proceed.

As it relates to Todd Kennon his résumé states clearly that his background of expertise is in family law. Not to say he doesn't have limited knowledge and experience in municipalities law. His turnaround time is beyond slow, his ability to deal with task that are given to him seem to get sidetracked on wild goose chases about me and other things. He has to go through a chain of people in order to respond to the city on matters because he lacks the experience personally. If this was divorce court or a child custody case, I would tell you to hire him in a minute in which I have personally referred several people to him for those services. But the city council is kidding themselves if they think he is experienced enough or can handle the work load. Plus he has already proven on several issues that he will lie in your face about matters and override the council by telling the city clerk to do what he said. The city don't need a city attorney or law firm who operates outside what the city recommends, request, or demand. That said, it is time to give Mr. Kennon an opportunity to resign or be terminated. I am willing to use all tools and resources to make sure that justice is served. This is about right versus wrong. The city clerk has been there too long, leak information, lie, and thinks she runs the city. And what is up with that gym membership in her contract? Mr. Kennon don't have the experience, he is willing to lie to the council, and do the bidding others rather than the city. Thanks.
